

Future Problem Solving (FPS) is an international program that empowers students to address complex societal issues through critical thinking, creativity, communication, collaboration, and compassion. Anandita has embraced these principles, consistently excelling at state and international levels since her 5th grade at The Harker School.

Key achievements include:

- 6-Time State Qualifier and Finalist
- State Global Issues Problem Solving (GIPS) Individual Winner – 2nd Place (2020)
- State Community Problem Solving Winner and International Qualifier – 11th Place (2022)
- State Presentation of Action Plan (PAP) – 1st Place (2023)
- International Community Problem Solving Winner – 3rd Place (2023), only student representing
- India

As a leader in FPS, Anandita has also served as Secretary, Lower School Coordinator, and Community Problem Solving Coordinator, mentoring younger students and helping them qualify for state competitions. Her FPS journey has shaped her personal growth and inspired her to make an impact in her community
